Happy New Year! It is time for our annual membership renewal, it is The White River Recreation Association's 85<sup>th</sup> year! The WRRRA is more than 225 members strong and is the most active organization of its kind in the U.S. The WRRRA continues to serve two primary functions:

1. To provide a collective voice in working with Congress, the Forest Service, and other government agencies to promote and protect all recreational features of the Upper White River Valley.
2. To promote community among cabin owners through well attended semiannual dinner meetings and summer picnic.

### WRRRA Membership benefits:

- **Quarterly newsletters** apprising members of current events and developments.
- **WRRRA Directory** listing addresses and phone numbers of all WRRRA members.
- **Summer Picnic** held annually at no charge for members and their families.
- **\$1000 Reward** for information leading to the arrest and conviction of anyone unlawfully entering or causing damage to a member's cabin property.
- **Free advertising** in the WRRRA newsletters for members selling their cabins.
- **Collective Voice** to protect the interests of the Recreational Residence Permittees. The WRRRA works with and supports financially the NFH, WSFH, and ALRA, which are part of the Cabin Coalition Two, working to revise current legislation to accomplish a fair permit fee structure which will improve the long term viability of the Recreational Residence program.

**All this for \$35 per year!** *Note: there can be as many as four WRRRA memberships per cabin, allowing cabin partners and adult children to receive all the benefits as well.*

**See STATEMENT enclosed**

## National Forest Homeowners (NFH)

As we begin our own WRRRA membership renewal drive, I thought it would be a good time to remind our members about the importance of the NFH and encourage our members to renew or become 1<sup>st</sup> time members.

### About Membership:

National Forest Homeowners could not accomplish all that it does without the support of our members, and the larger our membership, the better we can do our job as a national and regional advocate for the cabin program. If you are not already a member, join today! Some of the many benefits of National Forest Homeowners membership include:

- Having the representation of the only national organization advocating for recreation residence cabin owners
- Maximizing the strength of your voice with the Forest Service and with Congress through the collective power of our membership
- Becoming part of a like-minded community of others who enjoy their cabins in the woods
- Gaining exclusive membership access to the extensive resources on NFH's sophisticated interactive website
- Gaining access to online expertise on Forest Service operations, appeals, appraisals, permitting, organizing your tract, construction, maintenance, the National Historic Preservation Act and more on NFH's Centers of Expertise
- Creating a webpage for your own tract or association use on the NFH website
- Receiving our newsletter several times a year with the latest information about the Forest Service and Congress, NFH activities and administrative and environmental issues that affect cabin owners

Regular Membership is \$45 and Associate Membership is \$30 annually, however **WRRRA Members** receive a **Tract Discount** - Memberships paid through WRRRA tract are discounted to \$40 for Regular members and \$25 for Associate members.

The NFH continues to deliver valuable events, forums, and resources to their members. As a member you get access to an extensive knowledge base on the website. An example of such resources they provide an extensive list of Forest Service acronyms and abbreviations:

**AMP** Allotment Management Plan  
**AMS** Aquatic Management Strategy  
**AWA** Administratively Withdrawn Areas (no timber harvest in current Forest Plan)  
**CE** Categorical Exclusion  
**CEQ** Council on Environmental Quality  
**CFA** Cabin Fee Act (currently in Congress)  
**CRA** Congressionally Reserved Areas (includes Wilderness and Wild & Scenic)  
**CUFFA** Cabin Users Fee Fairness Act  
**DEIS** Draft Environmental Impact Statement  
**DM** Decision Memo  
**DN** Decision Notice  
**EA** Environmental Assessment  
**EIS** Environmental Impact Statement  
**ENR** Energy and Natural Resources (Senate Committee)  
**ESA** Endangered Species Act  
**FEIS** Final Environmental Impact Statement  
**FMP** Forest Management Plan  
**FONSI** Findings of No Significant Impact  
**LOP** Limited Operating Period  
**LSR** Late-Successional Reserves (protects old growth)  
**MP** Management Plan  
**NEPA** National Environmental Policy Act  
**NFMA** National Forest Management Act  
**NFP** National Fire Plan  
**NOA** Notice of Availability  
**NWFP** Northwest Forest Plan  
**OHV** Off Highway Vehicle  
**ORV** Off Road Vehicle

**RCA** Riparian Conservation Area  
**RecRes** Recreation Residence (Program)  
**ROD** Record of Decision  
**RR** Riparian Reserves (along streams/wetlands)  
**SOP** Schedule of Progress  
**SOPA** Schedule of Proposed Actions (list of current and proposed actions on NF lands)  
**SNFPA** Sierra Nevada Forest Plan Amendment  
**SUP** Special Use Permit  
**WA** Watershed Assessment/Analysis  
**W&S** Wild and Scenic (river)  
**WSA** Wilderness Study Area  
**WQMP** Water Quality Management Plan

## A message from the President,

### Bill Goodman:

Starting 2014 is a natural time to reflect on what we would like to accomplish in the New Year. WRRRA would like to be more relevant to you as a resource for all of us in the cabin community. What would you like to see WRRRA accomplish this year? How can we be a better resource for you as a member of the cabin community? We heard from 92 of you during our recent survey about dinner meetings, thank you for taking the time to response – see Kevin Orth's summary of the results in the this newsletter. We welcome feedback anytime, please let us know – email: [president@wrra.net](mailto:president@wrra.net).

We won't make progress toward being a vital cabin owner's resource without an active, involved membership. You can help us be relevant by joining WRRRA and encouraging those who share your cabin to also join. Perhaps you have family or associates who are not receiving this newsletter or our email news updates. Please share this opportunity with them and ask them to consider joining WRRRA. They can download the membership form from our website or contact: [secretary@wrra.net](mailto:secretary@wrra.net) to get on the mailing list.

Please also consider joining National Forest Homeowners (NFH) who work to represent cabin owners' interests on a national basis. There are approximately 14,000 cabins nationwide and NFH works to preserve the interests of all while being a resource and clearinghouse for information affecting all cabin owners -- Check out their website. You can join thru your WRRRA membership dues form and save \$5 on the annual dues.

Finally, please consider making your time and talents available to help us be relevant. There are lots of ways to volunteer to help us in projects like documenting cabin history, building a better WRRRA website, planning and organizing social events, etcetera. We could really use your help. Please contact me Bill Goodman at [president@wrra.net](mailto:president@wrra.net), if you can volunteer or if you have any suggestions, questions or comments.

## WRRRA Dinner Meetings Survey

*by Kevin Orth*

Member attendance at the annual WRRRA Spring and Fall Dinner Meetings has been in decline over the last few years; the Board wanted to determine why, and what actions we should consider taking to improve attendance and the attendee experience. An online survey link was sent to all members via email with a request for input; members without email addresses on file were sent a paper copy of the survey. Members were given 6 weeks to complete and submit the survey, with multiple reminders. Hopefully you all got a chance to submit your input!

A total of 92 surveys were submitted (84 online and 8 paper copies). Results have been tabulated, and some of the most interesting and relevant input is noted below:

- A surprisingly large number of respondents (about 30%) have NEVER attended a Dinner Meeting
- Respondents who have attended selected SOCIAL TIME with other cabin owners, and

ISSUES UPDATES, as the best elements of the dinner meetings

- The FOOD & DRINK QUALITY did not receive high ratings from respondents; for the Spring Meeting, the DAY (weeknight) and LOCATION also did not receive high ratings
- Respondents believe that IMPROVED FOOD & DRINK QUALITY, and BETTER SPEAKERS/PRESENTATIONS would contribute most to increased attendance and enjoyment
- DECREASED COST was the least selected option by respondents when determining what would improve their attendance and enjoyment at dinner meetings
- Most respondents were not very interested in changing the current format (2 Dinner Meetings and the Summer Picnic) to include a potluck or purely social event.

The Board will discuss the results and input in detail, including Comments submitted, at the January board meeting, and will develop some proposed changes and next steps based on the member feedback. Look for more information coming soon, and possible changes to be implemented at the upcoming Spring Dinner Meeting.

## Fall Road Clean up

On Sunday morning, October 27th, the morning after the Fall Dinner Meeting, a WRRRA-sponsored Highway Cleanup was held on the stretch of Highway 410 that the WRRRA supports in the Adopt-A-Highway program (the WRRRA has adopted the stretch of highway between the Mount Rainier Viewpoint and Camp Sheppard). A total of 13 volunteers from our cabin community helped clear the highway shoulder of garbage, collecting over 20 bags of trash in a short two hours, the cleanup was quick and fun. After cleanup, a social and fun lunch was held at the Orth cabin, enjoying warm food and camaraderie in the Silver Creek tract. Please

consider joining future highway cleanup efforts (they are held three times per year), for a fun and fulfilling way of contributing to the environment and getting to know other cabin owners!

Thanks to help from Kevin Bannon (SS155), Kit & Steve Ryan (SC23), Kevin & Lauren Orth (SC26), Linda Piper (GC34), Bill Jones & Margo Hanson (SS143), Jonathan & Wendy Hatch (SS143), John Campbell (GC4), Wendy Owen (D5), sorry to have missed anyone that participated!

## Fall Dinner Recap

The Fall Dinner was held on October 26<sup>th</sup> at the Greenwater Community Center (a.k.a. The Firehouse) with 75 in attendance. The dinner was a great opportunity for members to socialize, but it is also an important business meeting for the WRRRA – this is the time of year and venue, we as an organization, elect new board members. Please WELCOME new Dalles Rep Curtis Pepin, Silver Springs Rep (#2) Mark Wellington, and Goat Creek Rep (#2) John Campbell. We are also lucky to Kevin Bannon (Treasure) and Becky McAuley (Secretary) each serving another 2 year term! We would like to say thank you to the outgoing Board Members and thank them whole heartily for their time and efforts while serving on the board: Dalles Rep

Mary Anne Gillett, Silver Springs Rep (#2) Paul Russell, and Goat Creek Rep (#2) Gary Hill. Now just because they are leaving their rep positions doesn't mean their involvement will cease, knowing these folks commitment to the cabin areas they will continue to volunteer in other areas.

We also had a chance to discuss cabin related topics which were presented by subject matter experts in many cases directly from the Forest Service. We had a great line up of speakers and we would like to send our thanks to all the speakers for their time, their effort, and their willingness to participate. Bill Goodman covered quite a few topics including: Board Elections, CFA, Water System Approval Process and much more. Unfortunately we had to forgo Paul Russell's talk and will be sure to have him at the next dinner meeting! A HUGE thank you goes to our special guests that spoke: Paul Sowers - Chief of Greenwater Fire Department, Martin Rand - Crystal Mountain Kevin Bannon - Co-chair cabin history committee and Jeff McIntosh, USFS Law Enforcement Officer for Snoqualmie Ranger District.

This event would not be possible if it were not for the full involvement of the board, volunteers and speakers. A heart felt thank you to: Bill Goodman, Kit Ryan, Kevin Bannon, Kevin Orth, Ginny Cahill-Thorson, Chuck & Mary Anne Gillett, Jody Nyquist, Paul Meyer, Rena Irwin, Ken Leader, Paul Russell, Paul Sowers, Martin Rand, Jeff McIntosh, Frank Nemeth and the Greenwater Community Association.

Lastly, thanks to all those that brought items for the Silent Auction, your generous contributions yielded \$620 that will go toward the Cabin Defense Fund!

## In Memoriam

We would like to take a moment to remember some of our members that have passed away in this last year. We would like to recognize the passing of all members but often times we are not informed, so we apologize in advance if we unknowingly have not honored someone. We would like to continue the tradition of celebrating the lives of members that have passed each January so if you would like to submit remembrance please contact Becky McAuley [secretary@wrra.net](mailto:secretary@wrra.net) or 206-3283609.

### Toby Saks

*(Published in The Seattle Times from August 1 to August 4, 2013)*

Toby was born in New York City on January 8, 1942 and died at her home in Seattle on August 1, 2013. Her family, many friends and colleagues, and the musicians of the Seattle Chamber Music Society were with her during her last weeks. The cause of her death was pancreatic cancer.

Toby is survived by daughter Claire Berlinski of Istanbul, Turkey; son Mischa Berlinski of Seattle, his wife Cristina Lampieri of Borranio, Italy, and their son Leonardo; brother Jay David Saks and wife Linda of Ridgefield, CT, and their children Jeremy Saks, Greg Saks, and Jeremy's wife Ying Ying Li of New York City.

She is also survived by her husband of 25 years, Dr. Martin L. Greene. Marty's family from his first marriage was also Toby's family, with Jonathan and Catherine Greene and children Ariel and Eitan in Seattle; Richard and Beth Greene and children Jacob and Lila in Seattle; and the late Laura Greene and her daughter Emma Kisselev and Emma's parents Dmitri and Alesya Kisselev of Portland, OR and State College, PA.

### **Tab Lively**

*Published in News Tribune (Tacoma) on October 6, 2013*

Tab passed away living his dream in St. Thomas, Virgin Islands. In typical Tab fashion he died doing exactly what he wanted, where he wanted. He

went to enjoy some sun, sand and to move on with his life. He accomplished this on his final vacation. Tab attended Pt. Defiance Elementary, Truman Jr. High and Wilson High School. He was a proud member of the Wilson 1977 state baseball championship team. He owned and operated Tab's Lively Market on Oakes St. in Tacoma for many years. He was known for his giving and supporting of the local community through his store. He could be counted on for sponsoring teams, fund raisers, occasional "Holiday Cheer" or giving away the largest candy bars at Halloween. He loved being able to give and share his life rewards. After selling the store, Tab bought a cabin at Crystal Mountain, where he enjoyed many years of skiing and working. Tab is survived by his mother Babe, father Al (Mary Ann), children Michael (Hozoji) and Mary (Ben), grandsons Isaac and Benny, brothers Joel (Sonya) and Josh (Jeanette), sisters Toni (Larry) and Jodi, and numerous nieces, nephews, and extended family.

Correen will be cremated and her ashes spread at the beloved family's log cabin located at Deep Creek. Correen was born July 1, 1952, in Tacoma, WA to Stanley and Colleen (Gill) Orton. She was the grand-daughter of the founders of the Daffodil Festival.

She graduated from Sumner High School in 1970, where she proudly earned the title of daffodil princess and participated in a variety of sports. Correen was a member of the Sumner Assembly of Rainbow for Girls. She also attended WSU before her 20 years with Lincoln Property Company in Bellevue, WA. Correen was a proud member of the White River Recreation Association. She enjoyed every capacity of nature. She explored not only the back mountain trails, but extended her journeys to Ireland, the Caribbean, Hawaii, and Alaska.

She had a great appreciation for animals, especially wild birds. She loved deep sea fishing, skiing, camping, competitive games, music and live concerts, interacting on the computer, and spoiling her nieces and nephews. Her absolute passion was cooking and entertaining for her friends and family.

Correen was generous, always attending to the needs of others. You could always count on her to "tell it like she saw it." She is survived by her sister, Cindy (Bob) Crowley, brother, Fred Orton, nephew, Ken (Sara) Farthing, nieces, Keri Lester and Sara Crowley, grandniece, Rayleigh, grand-nephews, Cody, Dana, Kendrick, and Carter.

### **Correen Orton**

*Published in News Tribune (Tacoma) on Oct. 25, 2013*

Former Kirkland resident, Correen Willann Orton, 61, died October 23, 2013, of natural causes at her home in Puyallup, WA.

## House Sitting & Estate Management

[allen\\_alby@yahoo.com](mailto:allen_alby@yahoo.com)

*References gladly provided*

## Smart phones CAN be used in the cabin area

*By Floyd Rogers*

We're all plagued by poor cell phone reception in the cabin areas, and no internet connection via 4G or LTE services to go with that poor reception. There are evidently a few DSL connections available via Century Link, but most of us are limited to dial-up service at 55kbit; certainly not a terribly viable alternative for our WWW fix!

However, I ran across a solution that seems to work pretty well. I believe that a couple other people are using the same or similar solution: Cellular Signal Amplifiers. These devices are repeaters – not micro-cell sites – that amplify the signals from the cell towers and your local phone handset to provide extended range. If you didn't know, Verizon, ATT and T-Mobile all have a cell located at the top of the Green Valley chair on Grubstake Peak. Verizon and T-Mobile also have a cell at the top of Gold Hills, I believe. The cabin areas (SS, SC, GC, DC) are fairly far (about 5-6 miles) from Grubstake, and are also not in line-of-sight from Grubstake. You can get a better signal from the fire station outside Greenwater than the cabin area, since it's direct line-of-sight from Grubstake (As an aside, did you know that you can see Crystal Peak and Silver Queen Peak directly down the middle straight section of SR 410 about 1 mile from the fire station? The view of them used to be better before the trees grew up.)

There are several manufacturers of these devices, but the one with more "hits" in Google or Bing is Wilson Electronics. They have a wide range of products for in-home and office use, and at varying signal strengths and configurations. One of my friends who has a house in Cle Elum not far from my house there has bought one of the least expensive models and has had good experiences with it (I don't need one in Cle Elum since my house is line-of-

sight to a cell tower near the Cle Elum airport.) Another cabin owner has another Wilson model and is having good luck in the SC area. After putting it off for 8-10 months, I finally bought one in October and set it up.

The kit/model I bought is one of the more pricey ones, at \$339, but seems to work pretty well. It's nice to have 3-4 bars and 4G service in my cabin! The system consists of 3 units: the outside antenna, the amplifier and radio unit itself, and the interior antenna. There are some pretty fair setup instructions: the main thing to consider is location of the two antennas, as the interior antenna cannot be aimed towards the exterior antenna else a feedback/interference situation would then occur to prevent reception from the cell tower.

Although there appears to be some dropout issues – apparently with the signal from the cell tower to the external antenna – I can initiate and receive calls inside my cabin quite well, whereas before I had to go outside to a particular place and hold the phone just so... I ran a speed test on data/www reception (only 4G – the DB Pro doesn't do LTE), and got 2 MB download and 400K upload speeds, which is quite adequate to browse the www. One great advantage is a much extended phone battery life: since the phone doesn't have to run its transmitter at full power, with care the phone can last 2-3 days rather than run down overnight. If one were to pay the price for tethering your phone, one could have usable www access via a smart phone's wireless capabilities to other laptops/tablets.

In the Dual Band DB Pro model kit (841263) I bought, the exterior antenna is a directional antenna, which needs to be pointed towards Grubstake Peak (I am an ATT customer so up-valley doesn't work). The kit comes with a mounting bracket to make this easy. One uses one of the three lengths of co-ax cable to run from the antenna to the amplifier inside the cabin. Another length of co-ax connects the

amplifier to the interior antenna, which is mounted to a wall or the ceiling with a simple bracket. (One could, I suppose, put the amplifier outside with the antenna and run another length of co-ax to the interior antenna, if exterior power and shelter is available.)

There are other models that have simpler antennas that can be placed in a window, or have a non-directional antenna, etc. You can also buy individual pieces to customize installations. It's even less expensive if you don't want data and buy a single-band (voice-only) unit. Although I bought a Wilson, there are other manufacturers that make similar devices. Wilson Electronics is a wholesaler and does not sell directly; however they recommended an outfit named Solid Signal ([www.solidsignal.com](http://www.solidsignal.com) in Michigan). Solid Signal sells several brands, and lots of other stuff; heaven for an electrical engineer like me. They seem to have a knowledgeable sales staff that can recommend systems for varying reception conditions and needs.

## Status of the Cabin Fee Act of 2013 (12/12/2013)

*By Pete Bailey, C2 Steering Committee*

Six years into the effort to correct the problems with CUFFA, we approach the end of another December with no imminent resolution for the cabin fee crisis. The combined obstacles presented by the Congressional Budget Office (CBO) revenue requirements and a dysfunctional Congress remain in the way. This is in spite of the fact we have broad Congressional support for our truly bipartisan legislation: the Cabin Fee Act of 2013 (CFA), S. 1341 and H.R.1159. Cabin owners across the country desperately need help today. Sky-high bills for 2014 cabin fees arrive daily. Backs are against the wall, and many talk of removing their cabins.

### **This is where we are.**

In the House, under the guidance of Chairman Doc Hastings (R-WA), H.R.1159 has passed out of committee, but was found revenue deficient by the CBO. Efforts to attach the CFA to other legislation, thereby absorbing the shortfall, have not yet succeeded. The House National Resources Committee requested the CBO re-evaluate their opinion based on updated FS appraisal information supplied months ago, but the CBO has yet to respond to this request.

In the Senate, S.1341 was introduced by Senator Jon Tester (D-MT) this summer. A positive hearing on the bill was held last month by the Energy & Natural Resource (ENR) subcommittee on Public Lands, Forests and Mining. We have been told that the committee will hold a 'markup' session on the bill Thursday, December 19th. S.1341 will also need to be reviewed by the CBO before passage and we do not know whether their decision will be favorable or when it will occur. Our hope is that a CBO opinion will be released soon after the bill is passed by the committee.

### **This is how we plan to proceed.**

All cabin owners are encouraged to delay paying your 2014 permit fee bill as long as possible. If your bill arrived this month and has a due date of January 1, 2014, you still have a 30-day grace period, i.e., January 31, 2014 before incurring any penalty; use this grace period to your advantage. Passage of the CFA is still possible later this month or in January and could modify the 2014 fee structure.

The dedicated C2 leadership group continues work on several fronts. Our primary goal and focus remains the immediate passage of the Cabin Fee Act of 2013, it appears this effort will continue into early 2014.

If the CFA does not pass, we believe discussions with Forest Service leadership about potential administrative remedies could lead to improvements in CUFFA. However, this will not

address immediate hardships and imminent cabin loss.

Legal counsel has been engaged for many months. Failure of Congress to pass the CFA raises consideration of litigation. We believe injustices in CUFFA exist that may be sufficient to file for an injunction stopping the implementation of 2014 fees. An injunction could provide another window of time to get the CFA passed. This may be our only defensive option going forward and additional funding support from NFH membership will be required. We will keep you informed in the coming weeks as we navigate these challenging times.

## Snowplow and Roads Report

*(Does not apply to the Dalles tract)*  
By Bill Goodman

Thanks to all who have contributed to the snowplow and roads fund this fall. We have accumulated enough snowplowing money for a normal year of plowing. As you know there has been no need for plowing so far. Any funds not used this year will be carried forward to next season and requested contribution for next year will be adjusted accordingly. Any questions or concerns, email: [snowplow410@live.com](mailto:snowplow410@live.com)

As regards roads, we expended \$6000 to maintain the lower part of FS 7174 (Corral Pass Road). We did this due to the poor condition of the road and the fact that the Forest Service had no funds or plans to do the maintenance (Corral Pass road has been closed beyond the cabin area). **Those with cabins located along this road who have not contributed to the road fund in the past on the belief that FS would maintain the road should now contribute their fair share.** Mail your contribution (\$50 or more) to **snowplow 410 fund at: 621 119<sup>th</sup> St S; Tacoma, WA 98467.**

Disclaimer: WRRRA as an entity is not responsible for the roads in the cabin area. Snowplow410 fund is a volunteer effort of cabin owners.

## WRRRA

*The purpose of White River Recreational Association (WRRRA) is to promote and protect recreational interests along the Mather Memorial Parkway and throughout the Upper White River Valley; to do any and all things lawful, just and necessary to better the interests of the members of the Association; to secure equitable legislation; and to cooperate with the Forest Service in the protection and administration of all*

## 1<sup>st</sup> Annual Winter Family Social

January 19<sup>th</sup> from 2:30 – 4:30 PM

### Cabin Area Sledding Hill

(across from Silver Creek cabins 25,26,27)

Bring your own sled & helmet!

We will have both kid and adult refreshments including hot chocolate.

Get ready to participate in a sledding competition with junior, senior, and master categories!
